# REPORT.\*

Since the last annual report of the Central Free Dispensary of West Chicago, the work of the institution has in general steadily increased. The beneficence of this work to the poor and its economy to the public, in lessening the number of charges upon the county for relief and support, are each year more and more manifest.

The records of the Dispensary for the year ending June 30, 1878, show the following facts: Number of visits of patients to the Dispensary, 22,936—an increase of 4,196 over the previous year. Number of visits to patients at their homes by the physicians of the Dispensary, 3,890. Number of prescriptions furnished from the Dispensary, 26,338. The number of vaccinations was 1,263. This is small compared with some previous years. But this fact is not owing to a lack of disposition on the part of the Dispensary to render this service, but to the absence of any serious epidemic of small pox, which seems alone capable of inducing the masses to seek the protection of vaccination.

Steps have been taken to make the obstetric service much more efficient than heretofore. It is the intention to furnish a capable attendant to every poor woman who is unable to be otherwise attended in confinement—provided she but makes the fact known to the Dispensary.

The cost of conducting the extensive work of this institution during the past year has been very large. The items of expenditure are drugs and instruments, rent, heating and janitor service, apothecary's salary, printing and incidental expenses. Nothing is allowed for medical professional services to any one.

As appears by the list of donations in this report, the value of \$2,298 has been contributed by liberal-minded citizens of Chicago. It would have been absolutely impossible to carry on the work of the institution with the usual efficiency during the year had these subscriptions not been received.

The Honorable Board of County Commissioners have appropriated to the Dispensary the sum of \$900, in consideration of the service rendered during the current year to county patients.

As the income from all sources is much less than the necessary expenditures, the management are under the necessity of asking the public to add another to the many obligations under which it has placed this charity by again remembering it with the accustomed liberality.

---

\*Although this Report is issued in the month of September, the statistical matter, as will be seen, is for the year ending June 30, 1878.

# STATEMENT

OF

*Dispensary Work for the Year ending June 30, 1878*

AND FOR 11 YEARS, ENDING JUNE 30, 1878.
